

23/03/2020

Dear families,

Our prayers are with you at this time. We are focused on caring for your children and ensuring we continue to support their development. Our schools are open, with added precautions around group gatherings, to support you. Additionally, to help families who need to keep their children at home, we are also making resources available to keep learning happening.

While the government wants schools to remain open for this term, the situation will be reviewed for Term 2. However, no matter what happens in Term 2, I want to assure you that we have advanced plans to maintain teaching and learning. Our school group, with over 6000 students, is in a strong position to support our schools and families with learning materials that will keep your child's learning on track.

As Premier Berejiklian has encouraged parents to keep their children at home, please ensure the school is notified, together with the reason for the absence. The care of your child is very important to us as we work in partnership with you.

We understand that some of our families may encounter difficult financial circumstances due to the loss of work during this season. We are sorry if this has happened to you. If this means that payment of school fees becomes a problem, please contact us about your circumstances so we can work through options with you.

We appreciate how difficult this situation is for everyone, and as circumstances continue to develop, our commitment to you is that we will do our best to work with you in continuing to support you in the education of your children.

Kind Regards,

John Lyndon
